

BEN SENSE-AGGREGAT FOOT SENSE HEATER

1. Mount the feet like this. Enabling you to adjust height of the heater and be sure that it stands straight

3. Both legs mounted and all four feet adjusted to wanted height. Connect the heater and place it standing where it should. You can still open the hatch.

2. Lay the heater down to easier access the underside. Mount the legs with the small screws in these 8 holes.

4. The legs are now mounted correctly on the sense heater.
